GRAMMAR

As the child develops educationally, their written and oral language skills become more complex, and their ability to understand what they are reading also increases if they have the right building blocks.

Grammar instruction provides that structure.

DPS Vapi organized a special week, Fun-O-Grammar, for its Grade I and II munchkins. A plethora of activities was conducted to help students acquire and enhance Morphology and Syntax, the most important components of learning grammar.

The super energised 2nd graders got their grammar concepts cleared while they participated in games and activities like 'Ball and Pit', 'The family of plurals', 'Pairing up on the blocks', 'Act out the preposition'

The ever enthused 1st graders enjoyed brushing through the concepts like Nouns, pronouns, verbs, and prepositions, while they participated in games and activities like 'Roll into the tunnel', 'Enact the verbs' 'Ball hits the basket when..'

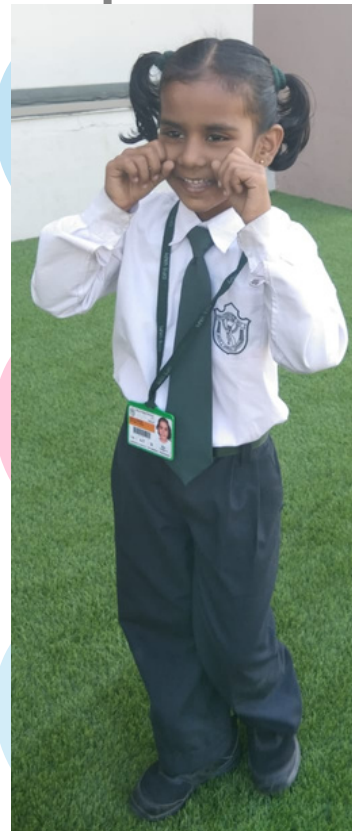

The panorama of enjoyable and knowledge-filled activities proved productive in facilitating effective learning and participation of all the high-spirited students.
